SUMMARY

1+ years of experience in frontend development. Proficient in HTML, CSS, JavaScript, React.js, Next.js, Vite, and Responsive Web design. Skilled at building responsive UI features. Not a rote learner — I actively read documentation, use online resources, and solve problems efficiently to deliver clean, scalable solutions. Experienced in handling client requirements, translating business needs into responsive and user-friendly web interfaces, and ensuring timely project delivery.

EXPERIENCE

Web Developer – **Grid IT Solutions** (February 2025– Present)

- Developed and maintained responsive web applications and landing pages using React.js, Next.js, Vite, JavaScript, HTML, CSS, and WordPress, ensuring cross-browser compatibility and optimal user experience.
- Built reusable UI components and implemented responsive designs, improving application consistency, performance, and maintainability across multiple projects.
- Debugged and resolved frontend issues, optimized website performance, and enhanced page load speed through code optimization and best development practices.
- Collaborated with designers and team members to translate UI/UX designs into pixel-perfect, responsive interfaces, delivering features on time while following clean coding standards and version control workflows.

SKILLS

Frontend: HTML5, CSS3, JavaScript, Bootstrap, Tailwind, React.js, Next.js, Responsive Design

CMS Platforms: WordPress, Shopify

Tools & DevOps: Git, GitHub

AI-Assisted Development: Prompt Engineering, Rapid Prototyping, and Code Optimization using LLMs

Soft Skills: Communication, Problem Solving, Team Collaboration

PROJECTS

KB Enterprise – Admin Dashboard

- Developed a responsive admin dashboard using React.js and Vite with reusable and modular UI components.
- Built interactive dashboard pages with tables, forms, navigation, and responsive layouts for an improved user experience.
- Integrated REST APIs to display and manage dynamic data across multiple dashboard modules.
- Ensured cross-browser compatibility, optimized frontend performance, and followed clean, maintainable coding practices.

Tech: React.js, TypeScript, HTML, CSS, MUI

OhMyPet – Pet Grooming Booking Platform

- Developed a responsive booking CRM interface with separate dashboards for customers, groomers, and administrators.
- Built reusable UI components, including booking management, user profiles, forms, and status tracking screens.
- Integrated frontend with REST APIs to display dynamic booking, payment, and customer data.
- Optimized the user interface for responsiveness, cross-browser compatibility, and a seamless user experience across devices.

Tech Stack: React.js, Next.js, JavaScript, HTML, CSS

EDUCATION

- Bachelor of Computer Applications (BCA): 2022 - 2025 (Completed)
- Senior Secondary Schooling: 2022 (Completed)
